Education

CHITKARA UNIVERSITY

B.Tech in Computer Technology

Graduated: June 2025

CGPA: 8.61/10

Experience

Full-stack Developer | Reclame Hub

Jan. 2024 - Mar. 2023

- Design, develop, and maintain efficient, reusable, and reliable code for web applications.
- Work closely with front-end and back-end developers to integrate user-facing elements with server-side logic.
- Troubleshoot, debug, and optimize application performance.

Full Stack Developer | Farmology India

July. 2024 - June. 2025

- Built a scalable SaaS platform using React and Django, handling full-stack architecture and deployment.
- Developed secure, RESTful APIs and responsive UIs for high-quality user experiences.
- Implemented JWT-based authentication and role-based access controls for data security.
- Integrated multiple third-party APIs, including advanced AI, geospatial, and data services, to extend platform functionality and enhance performance.

DELIVERED 25+ FREELANCE WORK IN WEB DEVELOPMENT

Since, Nov. 2022

- Experienced in developing SaaS platforms and full-stack web applications, from architecture to deployment.
- Proficient in building custom websites using WordPress, with a strong focus on performance, scalability, and UX.
- Skilled in crafting tailored Shopify solutions for e-commerce, including theme customization and integrations.

Projects

Real-Time Chat App and Zoom Clone (MERN stack, WebRTC)[LINK](#)

- Leveraging Socket.IO for real-time communication and WebRTC for video conferencing, this application offers a seamless chatting experience and Zoom-like functionalities.

Portfolio Site (Responsive Design, UX/UI) [LINK](#)

- This static site serves as a testament to my expertise and creativity, offering a comprehensive view of my work. Each project is thoughtfully displayed to highlight its unique features and my contribution

Achievements

- Web Developer | Google Developer Student Club
